Naturo ALU 75 windows are a unique combination of a natural wooden interior and an indestructible aluminum coating. It uses the best features of both materials, making it not only an interesting architectural solution, but also a durable and solid solution for modern construction.

* The above U-factor is a general achievable value for this window system. The detailed value can be provided with the selected IGU and product type.

The colour palette presented on the Eko-Okna's website is for illustrative purposes only and cannot be a clear reference to the actual colours or wood grain. As the most reliable source of colours, we recommend the sample provided by our partner, Teknos.
